PROJECTS

Maralit Dental Clinic Appointment System (*Full Stack Developer*) **August 2025 - Present**

- Currently developing a centralized appointment system based on MERN stack for a clinic with 3 locations in Los Baños with the goal of optimizing the staff workflow using modern web technologies.

Diet Plan Calculator (*Full Stack Developer*) **August 2025 - Present**

- Currently implementing a MERN based application that automatically generates diet plans based on accurate calculations, leveraging full-stack development techniques for continuous integration and deployment.

PICSEL (*Backend Developer*) **February 2024 – June 2024**

- Successfully integrated Google authentication to enhance security and streamline the user login process.
- Developed backend components for a reservation system with PostgreSQL, Express.js, Node.js, and React, contributing 94 commits and 12 merged pull requests to 7 features in a 20-developer team over 5 months.

eLBigayan (*Team Lead*) **May 2024 – June 2024**

- Led a team of 2 members in developing a Flutter and Dart donation system.
- Integrated 4 Firebase services to create a secure and scalable backend.

Fire Nation Invasion (*Game Developer*) **April 2024 – June 2024**

- Worked with 2 members to develop key features, including character abilities and game mechanics.
- Implemented a multiplayer feature that supports up to 4 players to connect and play from different computers.

2 Weeks (*Full Stack Developer*) **August 2024**

- Created a responsive story game using ReactJS and Vercel with 2 members for a client in a span of 3 weeks.

WORK & ORGANIZATION EXPERIENCE

International Rice Research Institute(IRRI) **July 2024 – October 2024**

Bioinformatics Software Developer Intern

- Implemented a custom OAuth authentication flow for SNPseek using Drupal in a Dockerized environment.
- Developed a MERN-based version of SNPSeek with a microservices architecture using Full-stack techniques.

UPLB Computer Science Society (UPLB COSS) **October 2023 – July 2025**

41st Computer Science Week Code Wars Co-Head/Project Manager

- Led a team of 7 developers to enhance the organization's flagship competitive programming event platform, managing feature development, bug tracking, and testing for smooth deployment and system optimization.

Membership Committee Member

- Handled applicant trackers and profiles during recruitment, successfully attracting and onboarding 24 new applicants, ensuring they met the organization's requirements and fit its culture.
- Designed an automated voting system in Google Forms, with a vote counter and validation mechanism to guarantee accuracy as well as automated email notifications for over 30 event participants

EDUCATION

University of the Philippines **September 2021 - July 2025**

Bachelor of Science in Computer Science

- Honor roll

STI College Calamba(STEM) **September 2019 - June 2021**

- with honors

SCHOLARSHIPS, SKILLS, & INTERESTS

- **Scholarships:** Iskolar ng Laguna, UP SLAS
- **Skills:** problem-solving; time management; collaboration; adaptability; decision-making; version control; CLI; APIs; authentication; web development; Java; Javascript; Python; C; C++; ReactJS; Flutter
- **Interests:** computer games; astronomy; puzzles
